

A Note Related to Codes for Transition from Part C to B (Indicator 12)

Code for districts will be J. This will be done next December when the Verification activity for Indicator 12 is sent to districts.

The V code is used by Early Steps. It is not used by districts and should not be included in your verification codes.

Although it might be a challenge, districts should attempt to set up a way to transition and complete evaluations of children who are in the 30 or 60 day timeline.

While Child Outcomes Measurement System (requirement of entry and exit scores from the BDI-2NU) is not a consideration at this time, IDEA and FAPE are. For evaluations and transitions that you absolutely can't get done -- ***document, document, document.***
