

Guide to Evidence-based Practices

Contents: Classroom Spaces Lesson Planning Embedding Instruction Engagement and Responsiveness Differentiating Instruction Facilitating Social Development ESE Services

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

Guide to Evidence-based Practices

Focus on Classroom Spaces:

Visual Supports are used to Enhance Instruction Daily schedule is posted with pictures and words Schedule is used as a teaching tool Rules are posted with pictures and words Class display is child-centered and/or related to instructional units Additional visuals are used to support instruction

Classroom Materials are Sufficient and in Good Condition Classroom areas are organized, clearly defined, and uncluttered Shelves, bins, and areas for children's personal items are labeled Materials are sufficient in quantity, interest, and variety to engage all children.

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

1. Visual supports are used to enhance instr	uction
1a. Daily schedule is posted with pictures and words.	
 Quality indicators: The schedule is taught or referred to throughout the day and throughout the school year. The daily schedule is posted at the children's eye level and is visible from most areas of the room. Classroom staff pairs the use of visuals with verbal information and checks for children's understanding. Children are encouraged to follow routines with increasing independence and in various situations. Questions to ask: ✓ How often do you refer to the schedule throughout the day? 	Clean Up Time Story Time Scoup Group Group Group Group
 ✓ How do you use the schedule to teach the routine and class expectations? Supports, Accommodations, Adaptations 	Links to Additional Information
	Right click to open in new window
 Universal Supports → Use mini-schedules to show the actions associated with routines (ex. handwashing, lining up). → Pair the symbol with corresponding verbal directions and provide guided practice through the activity in order to give children practice in the correct actions. Targeted/Specialized Supports → Use individual schedules for children who need to manipulate the schedule cards or who need photos of actual situations. → Provide accommodations such as reduced time, breaks, and sensory strategies for some activities → Provide repeated instruction, modeling, and guided practice for routines and activities. 	Introduction to Schedules Class Schedules Universal Design in Early Childhood (TATS-FIN) Flow Chart for Teaching Visuals Individual Schedules Schedules for Routines
 Intensive Interventions → Use schedules that are <i>designed and</i> <i>individualized to meet specific needs</i>: photos, drawings, objects and representative objects (for children who don't yet understand a photo or drawing), tactile (for children with visual impairments or the need for tactile input). → Provide <i>increased monitoring and interaction</i> activity to give <i>reminders and reinforcement</i> for participation → Provide visuals for <i>alternative activities</i> for adaptations for length and level of activities. 	<u>Specialized Schedules</u> <u>Schedules for Devices</u> <u>Tips and Ideas for Making Visuals</u>

Quality indicators:	
 Teachers refer to the schedule throughout the day using it to share expectations. Teachers use the schedule to prepare children for changes in activities and movement from one instructional time to another. Teachers emphasize the use of schedules throughout activities and across settings. Children are taught and provided practice in using transition strategies in various settings. Questions to ask: How do you use the daily schedule to support transitions? How often do you refer to the schedule throughout the day? 	What are we doing now? Image: Start are we doing now?
Supports, Accommodations, Adaptations	Links to Additional Information
	Right click to open in new window
<u>Universal Supports</u>	Universal Design for Learning in Early Childhood
 → Pair the symbol with <i>corresponding verbal</i> <i>directions and provide guided practice</i> through the activity in order to give children practice in the correct actions. → Provide a visual symbol and verbal cue that indicates that it is time to change activities. Targeted/Specialized Supports → Use <i>individual schedules</i> for children who need to manipulate the schedule cards or who need photos of actual situations. → Provide <i>repeated instruction, modeling</i>, and <i>continued guided practice</i> for transitions. → Incorporate schedules that show <i>"first" and "then"</i> to prepare and reassure children who benefit from knowing what will happen next. 	<u>Flow Chart for Teaching Visuals</u> <u>How to Make a First/Then Visual (Vanderbilt)</u> <u>Schedules for Transitions (First/Then)</u> <u>Teaching and Supporting Transitions</u>
→ Incorporate a method to let children know that an activity has been completed or is over (turning the visual symbol over, or placing the symbol in a "finished" envelope).	
Intensive Interventions	<u>Transition Tip Sheet (for difficult transitions from</u>
→ Use transition cues that are <i>designed and</i> <i>individualized to meet specific needs</i> : photos, drawings, objects and representative objects, tactile, photos of the specific child in area or activity.	<u>ConnectAbility)</u> <u>Helping Children with ASD Transition Successfull</u> <u>- University of Indiana</u>
→ Provide <i>increased monitoring and interaction</i> during each transition to give <i>reminders and</i> <i>reinforcement</i> for changing activities	

c. Rules are posted with pictures and words	
 uality indicators: Children are able to see the rules, posted with pictures and words, from all areas of the room. Pictures are provided that clearly define the rules. The number of rules ranges from three to five rules. Children participate in rule development. Rules are referred to throughout the school day and school year. Rules are easily understood by young children. Children are provided guided practice of the rules in varying situations and settings. Rules are shared with families. 	What We Use to Learn iooking eyes listening ears voices soft waiting hands quiet feet
Questions to ask: ✓ How do you develop the classroom rules? ✓ How do you teach the rules to the children? ✓ How often do you refer to the rules throughout the day or the school year? ✓ How do you address rules that have been broken	Circle Time Checklist Find your sit on fioor We Quiet hands eyes on teacher Ready to listen
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
Iniversal Supports	Displaying Classroom Rules
 → Pair the rule symbol with <i>corresponding verbal</i> <i>directions and provide guided practice</i> through the activity in order to give children practice in the correct actions. → Incorporate <i>frequent verbal statements</i> to inform children that they are following the rules. 	<u>General Classroom Rules with photos - Vanderbilt</u> <u>Sharing Rules with Families</u>
Fargeted/Specialized Supports	Specialized and Individualized Rules
→ Use <i>individual rule cards</i> for children who need to hold or be shown the cards as reminders.	Specific Rules for Activities - Vanderbilt
 → Use <i>photos</i> of the class or a specific child(individualized rules) → Use <i>social statements</i> to make a story about following a specific rule. → Incorporate a method for self-monitoring to let children <i>know how they are doing</i>. Provide a monitoring system. 	<u>Providing Rule Reminders and Positive Feedback</u>
intensive Interventions	Social Scripts and Self-monitoring
 → Provide increased monitoring, repeated instructions, and guided practice along with visuals that are <i>designed to meet specific needs</i> (photos, objects) → Use an individualized schedule for delivery of <i>reinforcement</i>, starting with a <i>few focus rules</i> and <i>brief time periods</i>. 	Specialized and Individualized Rules
 → Provide an <i>individualized social script</i> with photos to address specific needs for understanding expectations. 	

1d. Class displays are child-created and/or related to in	structional units.
Quality indicators:	
 The classroom display changes throughout the year. The display is predominantly child created. There is variety in the display – some projects are academic such as writing or patterning, some projects are class projects, and some are purely for exploration and creative expression. Adequate supports are provided for motor, organization, and communication related to projects. Children are encouraged to make choices, perform independently, and describe their projects. 	Artistic Process Emphasized Children are permitted to explore and create
Questions to ask:	Product developmen
 ✓ When are children allowed to create their own artwork or explore with creative materials? ✓ Are children allowed to create class projects that differ from the teacher provided samples? 	is emphasized Adult directed activity with minima creative expression
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
<u>Universal Supports</u>	Supporting Children's Projects
 → Discuss and display <i>expectations</i> for the art center and provide prompts and guided practice in selecting, using, and cleaning up materials. → Encourage children to work in pairs or small groups and to <i>share ideas</i> for open-ended projects. → Allow <i>extra time</i> or an additional time period for 	<u>Universal Design for Learning in Early</u> <u>Childhood</u> <u>How Process-focused Art Experiences</u> <u>Support Preschoolers - NAEYC</u>
children to be able to complete their projects.	Comparties Deputiele etters and Conserve
 Targeted/Specialized Supports → Provide a model and step-by-step directions on a mini-schedule for the activity. Model each step of a teacher-directed project. 	Supporting Participation and Success <u>Fine Motor Activities for the Classroom</u> Supporting Art Development
 → Accommodate for <i>sensory defensiveness</i> by allowing a child to choose an alternative method of using materials. → Use various <i>placements of paper</i> (horizontal, vertical) and provide a way to show the border of the artwork (tape, cookie sheet). → Provide <i>tools</i> with various sizes and styles of grips and handles 	
Intensive Interventions	Accommodations and Adaptations for
→ Provide strategies for children with communication difficulties to participate in <i>labeling and describing</i> their projects.	<u>Classroom Tools</u> <u>Fine Motor Development Checklist</u>
 → Provide <i>adapted materials</i> for children with physical difficulties or disabilities. → <i>Consult and collaborate</i> with service providers 	Adapting Activities and Materials

1. Visual supports are used to enhance instr le. Additional visual supports are used to support instr	
 Quality indicators: Use of pictures to support verbal communication such as stop signs, individualized picture schedules, scripted stories for social situations or first/then boards. Incorporation of manipulatives to support stories, finger plays and pictures paired with written words. Labeled shelves for organization. Visual supports provide non-verbal reminders and can enhance oral language development. Children are provided practice in using schedules and in making choices in various settings. 	take turns take turns
 Puestions to ask: ✓ How do you incorporate visual supports to enhance instruction? ✓ How do you use picture cues to support children who are having difficulty with task completion, following the schedule or adhering to rules? ✓ Are they consistently used throughout the day, month or year? 	CHOOSE-A-SONG- Where & Thumbkin Happy and You Know It Know It
Supports, Accommodations, Adaptations	Links for Additional Information
Universal Supports	Right click to open in new window Overview of Universal Design for Learning in Early
 → Post visuals in play centers and activity areas to support children in making choices, communicating desires, following routines. → Provide visuals and manipulatives that support story comprehension, retelling and sequencing. → Organize and clearly label shelves and provide visuals to support cleaning up and putting away materials. → Provide visuals that remind children about social play and interacting with peers. Targeted/Specialized Supports → Provide visuals that assist children in initiating and engaging in play scenarios and in using materials in the play centers. → Pair visuals with instructions and guided practice during play centers and activity times. → Pair photos of real objects with pretend toys and books to help children relate the information to real life → Provide first-then strips and mini-schedules for play 	Childhood <u>Visuals to Support Social, Communication, and</u> <u>Transition skills</u> <u>Visuals for Supporting Beginning Literacy and Math</u> <u>skills</u> <u>Visuals for Supporting Play</u>
 and activities. Intensive Interventions → Provide supports that are individualized for specific needs (visuals, photos, objects, tactile) to help children understand and relate to instruction. → Incorporate multi-sensory strategies and increase prompting levels to support participation. → Provide individualized communication systems and/or adapted materials (tools, seating, movement, and sensory) to support participation. 	<u>Literacy for Children with Combined Vision and</u> <u>Hearing Loss</u>

a. Classroom areas are organized, clearly defined, and	un-cluttered.
 Quality indicators: All areas of the room are clearly defined. Materials are organized and easily accessed by children and adults. Storage of materials not being used in centers or for current instructional units is minimal and not taking up classroom space. 	
Questions to ask: ✓ How often do you rotate materials? ✓ How much of the classroom materials are available for use by the children? ✓ Which materials in the classroom can only be accessed by adults?	
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
 Jniversal Supports → Define areas with signs (ex. centers, quiet/calm area, class library). → Post signs for areas that are not accessible during parts of the day (ex. computer area "closed"). Targeted/Specialized Supports → Use carpets, carpet squares, and placement of furniture to further define areas of the room. → Provide photos and visuals for students to help clarify and define specific areas (ex. photo of block area with directions for where to play with blocks). → Provide visuals and instructions for putting away materials. Teach children how to match the labels on bins to the materials they are putting away. Arrange the room so that there is ample space for navigating for children who have special equipment, wheelchairs, walkers, and seating. → Provide adaptations within each area for children with needs for tactile, visual, hearing, motor, and/or communication supports. 	The Universal Design of Early Education - journal.naeyc Designing Early Childhood Inclusive Classroom Examples of Clearly Defined Areas -Specialized Supports and Intensive Interventions Examples of Clearly Defined Areas -Specialized Supports and Intensive Interventions Examples of Clearly Defined Areas -Specialized Supports and Intensive Interventions

2. Classroom materials are sufficient and in goo	d condition.
2b. Shelves, bins, and areas for each child's items are labeled.	
 Quality indicators: Words, pictures and shape outlines may be used when labeling. Children know where to put materials when not in use. The organizational system for the room is taught to the children. 	
 Questions to ask: ✓ How do children know where materials are stored or where to get desired materials? ✓ How do the children know where to put materials when they are done? 	
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
 Universal Supports → Labels for each child's areas for storing backpacks, lunchboxes, and individual items should be labeled with their names in addition to a recognizable visual (symbol, photo) Targeted/Specialized Supports → Provide visual mini-schedules and/or social scripts to support children in the processes for locating, using, and putting away materials. → Include labels to indicate that some areas are "closed" and that some materials are "Teacher" materials. → Provide direct instruction and guided practice along with visual mini-schedules for children who are not yet familiar with the directions and actions of cleaning up, 	Universal Design Tip Sheet <u>Examples of Labels for Specialized Supports</u> and Intensive Interventions Visuals for Supporting Play
 putting away items according to category. Intensive Interventions → Provide hooks, cubbies, and bins that are accessible for children with motor, movement, or positioning needs, Examples: some bins with easily-removed lids, oversized hooks for hanging items, a cubby on the end of a row so that it is accessible for a child using a wheelchair. → Consider accommodations for vision, tactile, and hearing when labeling the areas and the materials in the room. → Provide labels related to safety. Emphasize and display safe use of furniture to decrease behaviors such as climbing on the shelves and tables. 	Examples of Labels for Specialized Supports and Intensive Interventions

2. Materials are sufficient and in good condition.	
2c. Materials are of sufficient quantity, interest, and var	lety to engage all children.
 Quality indicators: Materials are stored on child-sized shelves. There are multiples of high interest class materials and shelves are stocked. There are plenty of activities available in the class that are rotated throughout the year, to keep children actively engaged and extend learning. Class materials are in good condition. 	
Questions to ask: ✓ How often are materials rotated? ✓ Do children have access to high interest toys during center time activities? ✓ Can the children access materials independently?	
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
<u>Universal Supports</u>	Best Toys for Young Children by Age and Stage - NAEY
 → Consider the following when choosing materials: ✓ Wide range of developmental levels ✓ Wide and varied range of interests ✓ Addressing all domains of development throughout the day ✓ Variety in materials that provide: physical motor play, quiet time, pretend play, manipulative items, problem solving, individual as well as group activities 	Planning a Developmentally Appropriate Program for Children
Targeted/Specialized Supports	Let's Play Project - Guidelines to Promote Play
 → Provide visual scripts and guided interactive play to assist children who need support in understanding how to use some toys or in engaging in pretend play with peers. → Increase engagement for all children through the use of peer buddies. → Provide visuals that are specific to toys and materials for making choices and for communicating with peers during play. 	Opportunities for Children with Disabilities Toy Tips - Ideas and Options for Children with Special Needs Examples of Supports and Adaptations for Toys and Materials
Intensive Interventions	AT Participation Supports for Young Children with
 → Include toys that are cause and effect in nature and that have a variety of responses (ex. lighting up, making noise, moving) and that have a variety of required actions to activate. → Include toys such as puzzles with large knobs and specialized materials with accommodations for tactile, vision, hearing needs. 	Disabilities Examples of Supports and Adaptations for Toys and Materials Adaptive Materials Resources

Guide to Evidence-based Practices

Focus on Lesson Planning:

Instruction is meaningful, purposeful, and addresses FL standards.

Teachers know and can describe instructional objectives and purpose of activities.

Plans and activities consider and accommodate for individual needs, including IEP goals.

Teachers use ongoing progress monitoring to inform group and individual plans.

Activities match information in plan book and/or posted daily schedule.

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

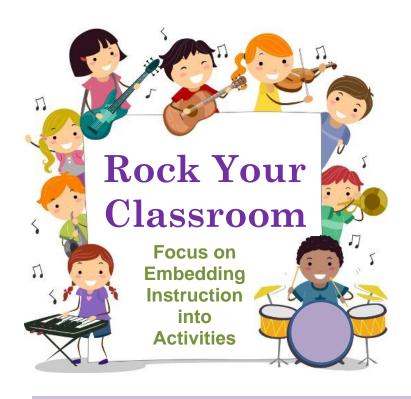

1. Evidence of lesson planning	
la. Instruction is meaningful, purposeful, and addresses FL s	tandards.
 Quality indicators: Activities are developmentally appropriate for the child's age and skill level. State standards and IEP goals are considered for both adult-initiated and child-initiated activities. Teachers prepare for lessons in advance with materials ready when children arrive. Children are provided opportunities and support throughout the day to practice functional use of skills. Lesson materials include information related to real life to facilitate generalization across settings and situations. 	
Questions to ask: ✓ How are activities developmentally appropriate? ✓ How are IEP goals and State Standards (VPK) embedded into this activity?	<u>Link to Florida Early Learning and</u> <u>Developmental Standards</u>
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
Universal Supports	Resources for Universal Design for Learning
 → Teachers and staff should be familiar with Florida Early Learning and Developmental Standards and be aware of the sequences of development described in each domain of the document. → Plans should allow for extension activities related to themes and skills. 	Activity Guides for VPK and FELDS Lessons that Last a Lifetime - Basic Skills
→ Plans should allow for and encourage child-directed and social play activities.	
 <i>Targeted/Specialized Supports</i> → Lessons and themes should relate to "real-life" and objects and visuals that represent the information should be provided. 	Individualizing Instruction in Preschool Sample Schedule with Descriptions
 → Pre-requisite skills and pre-requisite vocabulary should be directly taught → Lessons should provide for additional and extended 	Supporting Art and Projects
 practice of skills with re-teaching as needed. → IEP information (learning goals, present levels, learning styles and needs for support) is considered when planning and referenced in the lesson plans. 	Focus on Vocabulary during Routines
 intensive Interventions → Prompting strategies should be pre-planned, taught to 	Standards-based Instruction for Children with Intellectual Disabilities
staff, and used consistently.	Encouraging Language and Communication
 → Manipulative and real-life objects should be provided. → Consult with family, service providers, and classroom staff to be sure that activities are accessible to children with intensive needs. → IEP information (learning goals, present levels, 	Visual Strategies to Support Emergent Literacy

Evidence of Lesson Planning	
1b. Teachers know and can describe instructional objective	es and purpose of activities.
 Quality indicators: Teachers can explain what children are learning throughout the day for all indoor and outdoor activities. Teachers can explain how activities relate to State Standards or IEP goals. Teachers are aware of IEP goals, accommodations and/ or modifications for diverse learners. Teachers and staff plan for and facilitate the practice of skills in varying situations and settings. 	Square
Questions to ask: ✓ Do the children understand what they are learning? How do you know this? ✓ How are IEP goals and State Standards embedded into this activity?	This week we are learning to
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
 Universal Supports → Plans should be based on and correlated to the standards. → Teachers and staff should be aware of how the lesson and the activities relate to the standards, IEP's (as applicable), and progress monitoring (including formal, classroom-based, and district informational) tools. → Teachers and staff should facilitate practice of skills in various settings for all children. Targeted/Specialized Supports → Display visuals stating and showing learning goals for lessons, activities, and specific needs → Cue children to learning goals before activities as well as before and during practice opportunities. → Inform children verbally and visually how they are doing and remind them of what they have learned. → Teach skills directly and provide additional guided practice in varying situations. 	Florida Early Learning and Developmental Standards Resources for Universal Design for Learning Guide for Individualizing Instruction from Head Start Inclusion Breadth of the Three Child Outcomes Sample Matrix: Know the Goal Planning Matrix from Head Start Helping Children Understand and Set
 Intensive Interventions → State the goals for children with significant needs with simple and clear words and visuals, followed by practice with emphasis on functional use of skills. → Collaborate with families and service providers to determine IEP goals and how they will be addressed. 	Goals <u>Ideas to Engage Students with Significant Multiple</u> <u>Disabilities</u> <u>Planning Matrix from Head Start</u>

Evidence of Lesson Planning	
1c. Plans and activities consider and accommodate for indiv	vidual needs, including IEP goals.
 Quality Indicators: Teachers' plans indicate use of adapted materials and activities when needed. Teachers' plans indicate multiple modes of presentation of lessons and activities and allow for repetition and practice across various settings. Teachers plan for and allow multiple modes of participation in various settings and situations. 	
 Questions to ask ✓ Are needed adapted materials readily available to children? ✓ Are activities planned to allow for multiple modes of learning and responding? ✓ Are IEP goals noted on lesson plans and evident in instructional strategies? 	
Supports, Accommodations, Adaptations	Links for Additional Information
	Right click to open in new window
 Universal Supports → Teachers and staff should become familiar with strategies that support all children across a wide range of differences and needs. → Plan for accommodations and specialized materials as appropriate. Consult with service providers and family members regarding meeting the needs. → Monitor progress as well as success of supports in order to share and gather information with family. Targeted/Specialized Supports → Plan and implement a systematic process of prompting. → Provide photos, visuals, and objects related to themes and lesson information. → Plan for using specialized and adapted materials for motor, vision, and cognitive needs. Plans should include information related to each child's access to activities. → Allow for extended practice, re-teaching, and strategies such as sensory breaks, and hands-on practice. 	Florida Early Learning and Developmental Standards Resources for Universal Design for Learning Individualizing Instruction in Preschool Guide for Individualizing Instruction from Head Start Inclusion Scaffolding Language Activities - NAEYC Curriculum Adaptations and Modifications
→ Plan for practice in a variety of settings and situations. Intensive Interventions	Adapting Materials and Activities
 → Consult and collaborate with family and service providers to support goals and be certain that adapted materials are provided. → Include skills that are related to real-life and provide 	<u>Children with Multiple Disabilities - Tips for</u> <u>Teachers</u>
 examples during lessons that allow children to use the information. → Include adaptive and personal-care skills in the daily schedule and provide sufficient support and practice for children to learn the skills. 	<u>Descriptions and Tips for Children with Special</u> <u>Needs (Head Start)</u> <u>Suggestions for Incorporating AAC into Classrooms</u>
→ Implement specific plans to address behaviors, communication, AAC use as needed.	

Evidence of Lesson Planning	
1d. Teachers use ongoing progress monitoring to inform gro	up and individual plans.
 Quality indicators A system for collecting information about children's performances throughout the day is in use by teachers/ staff (examples: clip boards, sticky notes, data sheets) Teachers/staff use a system for recording and monitoring progress (examples: teacher-made tool, curriculum-based document, district informational tool) Progress monitoring is evident for skills at varying developmental levels and child outcome areas. Information from progress monitoring is used to guide and inform instruction and planning. Data is collected from observations in various settings and situations. Questions to ask: 	SubjectMondayTuesdayReading & Fine Motor#1 Letter "F" Words Image: Image: Image
 ✓ Does the teacher/staff use a progress monitoring tool that has specific skills listed? ✓ Does progress monitoring include a variety of skills across domains and at varying developmental levels? 	1 will learn all my Compliance 1 will finish time
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
Universal Supports → Refer to FL Standards to determine ranges of development in functional use of skills. → Include information from families in progress data. Targeted/Specialized Supports → Provide visuals that support children in understanding goals for specific lessons and activities. → Provide visual expectations and a marking system such	Resources related to Progress MonitoringEarly Childhood Building Blocks for InclusionPartnering with FamiliesGuide for Individualizing Instruction from HeadStart InclusionSample Group Matrix
as checks or stickers to help children self-monitor. → Support children in rating and determining "How I am	<u>Example: Activty Matrix (Individual)</u>
 Doing" related to the steps of learning a skill. → Collect data that is related to specific steps of activities and record the needs for supports. Consult and collaborate with family members and service providers to help determine "next steps" for children. 	<u>Checklist based on Routines</u> <u>Flow Chart for Using Data</u> <u>Opportunities for Observation and Data Collection</u>
Intensive Interventions → Collect data that is detailed for each activity to describe the level of prompting and support needed, as well as the rate of progress. Data such as this is important for	Accommodations and Modifications at a Glance Example: Activty Matrix (Individual) Flow Chart for Using Data
 reviewing and revising learning goals. → When collecting data related to behavior supports, include information that can be used in determining antecedent behavior as well as reinforcers. → When collecting data related to communication, note the child's modes of communication as well as reasons for communicating. 	<u>Opportunities for Observation and Data Collection</u>

Evidence of Lesson Planning		
1e. Activities match information in plan book and/or posted daily schedule.		
 Quality indicators: Teachers keep to the posted schedule in order to maintain consistency and predictability and encourages independence in the use of schedules. Teacher explains the routine and expectations throughout the year and children are able to practice routines in a variety of situations. The schedule is flexible enough to address teachable moments or unexpected events that may arise. 	Centers	
 Questions to ask: ✓ What happens if the children are particularly interested in an activity but the time for the activity is exhausted? ✓ Under what circumstances do you change or modify the daily schedule/routine? 	story time nop look of books	
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window	
 <u>Universal Supports</u> → Visual supports for schedules and routines are displayed and referenced throughout the day. → Visuals include a variety of representations to meet unique needs and enable practice in varying settings. 	<u>Resources for Universal Design for Learning</u>	
 Targeted/Specialized Supports → Children are provided assistance and support in learning the meanings of classroom visuals and are provided guided practice during routines and activities. → Provide schedules that accommodate for needs for visual, cognitive, behavioral, and communication support, example: high contrast printing, object, tactile, photo schedule. → Provide for and indicate in the posted schedule times for groups of various sizes as well as for individualized instruction as needed 	<u>Grouping Children to Promote Growth</u> <u>The How and Why of Using Small Groups in</u> <u>Preschool</u>	
 Intensive Interventions → Provide strategies within routines to assist with transitions, example: first/then cards, timers to show when activities end or begin. → Provide schedules that accommodate for needs for visual, cognitive, behavioral, and communication support, example: high contrast printing, object, tactile, photo schedule. → Provide individualized assistance, prompting, and guided practice throughout various situations. → Provide for and indicate in the posted schedule times for groups of various sizes as well as for individualized instruction as needed. 	Ideas to Engage Students with Significant Multiple Disabilities Opportunities for Observation and Data Collection Checklist based on Routines	

Focus on Embedding Instruction:

Independent and self-care skills are incorporated in daily routines.

Gross and fine motor skills are included in daily lessons and activities.

Instruction that promotes social-emotional development is provided throughout the day.

Daily lessons, activities, and routines include emphasis on language and communication.

Early literacy activities are embedded throughout daily activities and routines.

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

2. Embedded instructional strategies

2a. Independent functioning and self-care skills are incorporated in daily routines.

Quality Indicators

- Adequate time is allowed for children to participate as independently as possible. Children who need assistance are provided prompts that lead to independence.
- Self-care skills are incorporated into daily routines and children participate in activities such as being "snack helper" or other classroom jobs. Family members are included in planning for self-care routines.
- Children clean up and help organize/put away materials in the classroom, lunchroom, and settings throughout the campus.

Questions to ask

- ✓ Is ample time allowed during the daily schedule for children to perform self-care skills?
- ✓ Are children encouraged and taught to help with cleaning up and other classroom jobs?
- Are there visuals to support children and encourage independence through the steps of self-care tasks?
- ✓ Is assistance (with a plan for fading prompts) provided for children who need assistance?

Supports, Accommodations, Adaptations

<u>Universal Supports</u> → Teach children the steps of self-care routines and allow time in the daily schedule for them to practice.

- → Place visuals showing step-by-step processes for routines.
- → Collaborate with family members to develop plans for generalization of skills across various settings.
- Targeted/Specialized Supports
 → Provide direct instruction using verbal and model directions for steps shown in visuals.
 - → Enhance instruction and practice through use of classroom books and toys in centers.
 - → Coordinate with families to provide consistency in teaching self-care skills.
 - → Employ appropriate system of prompting in order to develop independence.

Intensive Interventions

- → Consult and collaborate with therapists and service providers to develop plans to support children with physical and/or cognitive needs.
- → Ensure that children with significant needs for support are given ways to participate as much as possible in their self-care routines.

Embedded instructional strategies

2b. Gross and fine motor skills are included in daily lessons and activities.

Quality Indicators

- Movement activities are provided periodically throughout the day (ex. movements, marching, walking like animals during circle, transitions, and active play).
- Children use gross and fine muscle movement skills in functional ways to physically navigate through a variety of settings and situations (classroom activity areas, playground, lunchroom, bathroom).
- A variety of fine motor activities and materials are available throughout the day.
- Fine motor activities are developmentally appropriate and engaging and children receive assistance in fine motor tasks if needed.
- Adapted materials and tools are available for fine and gross motor activities.

Questions to ask

- ✓ Are motor breaks and motor activities built into daily routines (example: movement activities interspersed with seated activities during circle time; movements incorporated into transitions)?
- ✓ Does the classroom offer a variety of fine motor activities, some of which are provided in centers and free choice areas?
- ✓ Do adults encourage and reinforce gross and fine motor activities throughout the day?

motor activities throughout the day?

Embedded instructional strategies	Embedded instructional strategies		
2d. Emphasis on language and communication			
Quality indicators:			
 Teachers actively engage children in social conversation beyond the scope of the prescribed curriculum and assist them in using conversational skills in functional ways throughout activities. Teachers identify vocabulary or linguistic concepts and embed them into teaching and learning opportunities, emphasizing reallife examples and situations that help children generalize the information. Teachers provide opportunities to practice use of new vocabulary or linguistic concepts in varying situations and settings, including collaborating with families for follow-up. 			
Questions to ask:			
 ✓ How do you incorporate language or communication-building activities into all areas of the daily routine? ✓ What types of questioning strategies do you use to expand thinking and expressive/receptive communication skills?

Embedded instructional strategies

2e. Early literacy activities are embedded throughout the routine.

Quality indicators:

- Books and literacy materials are in all areas of • the classroom, including centers.
- Children have access to many books, on a ٠ variety of topics of interest, and at developmentally appropriate levels.
- Books are rotated throughout the year and ٠ coordinate with the class units of study.
- Children are provided the opportunity to read ٠ and write throughout the day and to use these skills in functional ways across activities.

Questions to ask:

- ✓ How often do children visit the reading area or are children read to individually or in small groups?
- What materials are children provided for \checkmark independent writing? Where are they located in the classroom? How are they used for functional *purposes?*
- How are children encouraged to select stories to \checkmark

read for pleasure that are not tied to the current unit of study?	A B B K

 children with significant needs in areas such as responding and using/manipulating materials. → Provide interventions, accommodations, and 	<u>Using Adapted Books to Encourage Participation and Teach</u> <u>Core Words</u>
adaptations to address needs for individual instruction, adapted materials, and physical assistance.	<u>Curriculum Planning Form</u>

Guide to Evidence-based Practices

Focus on Engagement and Responsiveness:

Adults and children are engaged in the current activity.

Conversations (child/child and adult/child) are encouraged and observed.

Adults demonstrate respect and cooperation in working together.

Adults interact with children and facilitate interaction between children.

There is evidence that teachers communicate with and collaborate with families.

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

3a. Adults and children are engaged in the current activity	1
 Quality indicators: Adults observe and interact with children. There is a balance of teacher directed and child directed activities. Children have opportunities to make choices and teachers facilitate their learning, while encouraging their development of independent functioning. Teachers have conversations with children and help them relate their classroom experiences to other situations. Teachers and staff accept each child's mode of communication and assist children's development of functional communication. 	
Questions to ask: ✓ When do you allow children to make choices? ✓ How do you facilitate, rather than direct, instruction? ✓ When do you have conversations with children?	
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
Universal Supports	Visuals for Supporting Instruction
 → Plan lessons that address varying needs for extended and guided practice, hands-on and functional activities, and real-life,visual, and photo connections. → Classroom adults provide feedback, redirection, and supports as needed. → Classroom adults are observant of children's engagement and functional use of skills for purposes of providing support and progress monitoring 	<u>Environments that Invite Learning</u> <u>Encouraging Participation in Shared Reading</u>
Targeted/Specialized Supports	TATS-Talks-about-Supports-and-Adaptations
 → Provide adaptations and modifications as needed to assist children in staying engaged and participating. → Include multi-sensory activities related to lessons and themes in centers and activity areas. → Relate lessons to real-life activities. → Ensure that children are given varying modes to 	Zoning the Room for Increased Engagement TATS Talks - Supporting Communication and Literacy Embedding Individualized Instruction

adaptations to address needs for individual instruction, adapted materials, and physical assistance in multiple situations and settings.	<u>Adapting Activities and Materials for Young</u> <u>Children with Disabilities</u>

3b. Conversations (child/child or adult/child) are encouraged and	observed
Quality indicators:	
 Teachers talk with children about instructional and non-instructional activities and facilitate the practice of skills across various situations and settings. Teachers use language and communication to encourage children and describe actions while modeling to encourage the use of functional skills. They communicate with children beyond the purposes of directing children, teaching a newskill, or asking questions about activities. 	
Questions to ask:	
 ✓ How / when do you have conversations with the children in the class? ✓ What types of things do you talk about? ✓ How do you encourage communication beyond instructional topics? 	
Supports, Accommodations, Adaptations	Links for Additional Information
	Right click to open in new window
Universal Supports	<u>Talk, Read, and Sing Together Every Day</u> - Ideas
 → Set up the room with items and displays that interest children, and those that children are likely to see in various settings. Talk about them and encourage children to express interests. → Provide wait time and encouragement for children who are hesitant to talk or at beginning levels of communication. → Accept and provide support for communication from all children in the classroom in the modes they use to respond. Targeted/Specialized Supports → Provide visuals such as core boards, communication boards, choice boards to support children. 	for engaging children in conversation Reading with Children is an Opportunity for Conversation - project of National Institute of Literacy Talking with Young Children Word Games for Listening and Talking - resource from US Office of Special Education - pdf
 → Provide opportunities for children to "talk about" what interests them and facilitate opportunities for them to communicate in varying settings. → Support children in remembering words with visuals, songs, rhyming patterns. 	Encouraging Oral Language and Conversations
Intensive Interventions	Helping Team Members Respond to Various
 → Collaborate with therapists and families to develop and help children use communication systems. → Be observant of and progress monitor each child's individual levels of development, modes and use of communication, and preferences for play and toys. → Teach children to make choices and provide visual and object support. Provide opportunities for making choices in varying settings and situations. 	Modes of CommunicationSupporting Children with Various ResponseModesSupporting Communication for Various Ages andDevelopmental Levels

3c. Adı	ults demonstrate respect and cooperation in working	together
	indicators:	
e e e	Teachers share in the responsibilities of the classroom. Teachers work together as a team when planning, facilitating, and implementing daily activities. Teachers speak to each other with kind words and professionalism. Teachers seem genuinely happy to be in the classroom and enjoying the children and planned activities. Teachers, service providers, and classroom staff collaborate to plan for facilitating children's practice of functional skills throughout daily activities, as well as across situations, people, and settings.	
•	ons to ask:	
✓ ✓ ✓	How are responsibilities shared? Do you enjoy your work and the children you educate? Are duties of teachers/staff varied according to interests and talents? Are the "desirable" and "undesirable" tasks rotated?	
Suppor	ts, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
Univer	sal Supports	<u>11 Things Rocking Co-teachers Do</u>
\rightarrow \rightarrow	Classroom staff should collaborate to develop a daily schedule that allows them to share in responsibilities. 	families to develop specific individualized plans. Provide information about the supports and strategies to families so that they can help their child practice skills in other settings.	<u>1,2,3 Care - Toolkit for Supports</u> <u>Florida Early Learning and</u>
\rightarrow	Health plans and emergency response should be shared with all staff.	<u>Developmental Standards</u>
\rightarrow	All classroom staff should be familiar with the stages and sequence of child development as they apply to the Florida Early Learning and Developmental Standards (FELDS) and skill progression.	

3d. Adults are interacting with or facilitating interaction between children.

 Quality indicators: Classroom staff and service providers interact with all children in consistent but varying roles to enable children to experience various situations throughout the day. Adults are engaged with activities with children and encourage independence in the use of functional skills. Adults allow children to assume to role of activity leader and follow the lead of the children while guiding them in their use of social interactions across situations. Adults exhibit proximity to the children by remaining in areas where children are working, are at the children's 	
eye level, and respond when children seek help.	
 Questions to ask: ✓ When and how do you allow children to "take the lead" inthe classroom or during unstructured activities? ✓ How do you help children develop independence in their interactions with peers and adults? 	
Supports, Accommodations, Adaptations	Links for Additional Information
	Right click to open in new window
<u>Universal Supports</u>	Activities that Encourage Cooperative Play
 → Arrange the room so that children have a variety of interesting activities, as well as access to materials needed to independently make choices, develop play scenarios with peers, and participate in activities. → Provide centers and toys that encourage children to initiate activities and to invite friends to join. → Reference and discuss skills for peer interactions during activities. Relate books to social skills. 	<u>Process for Teaching Social Skills</u> <u>Social Development for Groups of Children</u>
Targeted/Specialized Supports	Facilitating Peer Interaction - University of
 → Provide and teach visuals related to class rules, routines, and peer interactions. → Facilitate peer interactions and encourage skills such as initiating play, problem solving, and handling conflict. → Provide feedback, reinforcement, and additional instruction and practice in self-regulation, requesting help, and using skills in varying situations. \rightarrow Develop lessons that address specific skills. Provide	
and teach self-regulation strategies.	TATS Talks - Developing and Teaching Social
	<u>Skills Lessons</u>

3e. There is evidence that teachers communicate and collaborate with	th families.
Quality Indicators:	
 Teachers and staff maintain regular communication with families about classroom themes, schedules, and goals, including suggestions for follow-up at home. Teachers collaborate with families and gain information about children's use of functional skills, as well as use of skills in various settings and with multiple people and situations. Teachers/staff consult with and include related service providers in supporting families' participation in meetings. Families are provided needed information to be comfortable sharing information about their child. 	Family Information
 Questions to Ask: ✓ Are families encouraged to visit (within guidelines established by administrator), correspond, and/or make appointments to visit or conference? ✓ Do teachers/staff adhere to rules related to confidentiality of students? 	Welcome To our Class
Supports, Accommodations, Adaptations	Links for Additional Information Right click to open in new window
Universal Supports	<u>A Family Engagement Guide from Head Start</u>
 → Develop a system (family bulletin board, newsletter)to share information with families. → Welcome families and allow for regular times in your schedule for meetings, conferences. Provide time and methods for families to share information. → Communicate regularly regarding children's progress and needs as well as suggestions for reinforcing skills in various settings. 	<u>Tips for Schools to Enhance Family Engagement</u> <u>Family Brochure for COS</u>
Targeted/Specialized Supports	Encouraging Family Engagement - CEC checklist
 → Update family members regularly regarding progress related to IEP goals, COS information, as well as other skills noted in progress monitoring. → Collaborate with families to present information(visuals, vocabulary, routines) consistently. → Provide resources and information about community resources that might be beneficial to the family. 	<u>Sharing Class Rules with Families</u> <u>Links to TATS Talks to Families (6 resources)</u>
Intensive Interventions	Solutions for Families - Tips for Parents of Young
 → Discuss skills and behaviors related to children's disabilities honestly but kindly with family members. → Involve families in setting goals and in helping to 	<u>Children with Challenging Behavior</u> <u>Engaging Families in Ongoing Child Assessment</u>
monitor the impact of interventions in the home setting. Involve family members in the COS process and facilitate their sharing of information.	<u>Unplanned Journey - Resources for Families with</u> <u>Children with Disabilities</u>
 → Provide information about community resources and support groups that might be helpful to the family. → Collaborate and have discussions with families to not only identify issues but to celebrate progress in steps toward goals. 	<u>Partnering with Families of Children with</u> <u>Disabilities</u>

Guide to Evidence-based Practices

Focus on Differentiated Instruction:

- Teachers conduct ongoing progress monitoring to inform instruction.
- Scaffolding/Universal Design for Learning practices are demonstrated.
- Accommodations or modifications are used as needed or indicated on IEP's.
- Varieties of group sizes and length of activities are used.
- All children have opportunities to participate with peers in activities.

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826

Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

4. Differentiated Instruction	
ła. Teachers conduct ongoing progress monitoring to inform	instruction.
 uality indicators: Teachers refer to information from progress monitoring to develop differentiated instructional strategies and include these strategies in the lessonplan books. They develop progress monitoring forms and refer to the forms for gathering data related to the three Child Outcome areas. Teachers recognize children's different levels of participation and differences in their functional use of skills. 	
 Teachers are familiar with and understand the use of the district-approved informational tool. Questions to ask: ✓ What resources do you use to support scaffolding of instruction? 	Observe Record
 Where do you address differentiated instruction in your lesson plans? How do you include all children as active participants in the lessons or class activities? How do you use progress monitoring data to inform your instruction and guide you in providing practice to children in the functional use of skills? 	Plan Develop Strategies Differentiate Teach Provide Practice Back to Observe
Supports, Accommodations, Adaptations	Links to Additional Information Right click to open in new window
niversal Supports	Resources for Progress Monitoring - TATS page
 → Employ use of Student Progress Monitoring and District- approved Informational Tool to inform instruction, goals, and COS data. → Observe children's use of functional skills across situations and settings and incorporate progress monitoring into daily routines. → Collaborate with staff, related service providers, and family members to gather data about children's functioning in multiple situations and settings. 	Progress Monitoring Tips for Teachers (Head Start Inclusion) Examples and Definitions: Assessments for Progress Monitoring
argeted/Specialized Supports	Skill Assessment Checklist
 → Use skill assessment checklists that focus on functional skills in the Child Outcome areas. → Develop a planning matrix based on goals as they relateto the daily routine. Use the matrix to determine which progress data to collect at varying parts of the routine. → Gather information related to IEP goals, as well as information related to classroom performance throughout the day in varying situations and with varying people. 	<u>Progress Monitoring - Tips for Teachers of</u> <u>Children with Disabilities (Head Start)</u> <u>Teacher Planning Matrix</u>
ntensive Interventions	Monitoring Behaviors during Routines
 → Break down goals into smaller steps (task analysis) to show both progress and continued needs accurately. Use this data to inform instruction that emphasizes children's ability to use skills in functional ways. → For children with highly individualized needs, collect data more often so that needs are evaluated frequentlyand that 	<u>Child Assessment Worksheet - Head Start</u> <u>Progress Monitoring Flow Chart</u>

4b. Scaffolding/Universal Design for Learning practices are d	lemonstrated.
Quality indicators:	
 Teachers differentiate instruction for children based on individual needs. References to differentiated instructional strategies are included in the lesson plan books. Teachers recognize children's different levels of participation and make changes as needed to assist children with functional use of skills. All children are active participants in lessons and lessons emphasize functional skills. Teachers plan times in the schedule to provide opportunities for practice of skills across varying settings, situations, and people. 	
 ✓ What resources do you use to support scaffolding of instruction? ✓ Where do you address differentiated instruction in your lesson plans? ✓ How do you include all children as active participants in the lessons or class activities?

Areas Domains Embedding Individualized Instruction, Modifications, Adaptations Tips for an Integrated Therapy Approach Disabilities

4c. Accommodations or modifications are used as needed an	d/or indicated on IEP's
 Quality indicators: All children are active participants in activities and lesson plans indicate practice of skills across multiple settings. Activities are modified to accommodate the needs of children and plans address the same standards and use of skills as their typically developing peers. Accommodations or modifications are in accordance with IEPs, documented in lesson plans, and methods of practice are shared with families and service providers. 	
 Questions to ask: ✓ What types of modifications are used to ensure participation of children with special needs in all activities? ✓ What types of accommodations are used to ensure the participation of children with special needs in all activities? ✓ How are you documenting accommodations or modifications? ✓ Are you aware of, and implementing, accommodations or modifications for children with IEPs? 	
Supports, Accommodations, Adaptations	Links to Additional Information Right click to open in new window
 Universal Supports → Collaborate with families related to family goals, instructional plans, and IEP goals and objectives and develop plans needed to address those goals. → Be aware of your role in the discussion of children's needs and progress and facilitate the participation of family. 	<u>Visual Supports_Checklist</u> <u>Tools for Inclusion - Head Start</u>

as needed. Be sure that you and other staff have been trained on its use.	<u>Addressing Adaptive Skills in the Classroom</u>
\rightarrow Be aware of prompting hierarchy needed during the	

4d. Varieties of group sizes (whole, small, individualized) and length of activities are used.

Quality indicators:

- Groups vary in number and characteristics and children are grouped in ways that expose them to multiple abilities and activities.
- Small group and individual practice are provided as follow-up for teaching skills introduced in whole group lessons.
- Teachers/staff are aware of and plan for shortening the time of activities or breaking activities into short/small components when needed to address needs.
- Teachers are aware of class/group size ratio and vary ratios, activities, people, and settings. Teachers, staff, and families observe children engaged in multiple activities and note their functional use of skills.

Questions to ask:

- ✓ How are group sizes varied and used in the classroom? Are children grouped with different peers on a regular basis?
- ✓ Is the length of time of activities varied or individualized based on learning needs of the children?

Links to Additional Information Supports, Accommodations, Adaptations *Right click to open in new window* Grouping Children for Social Growth Universal Supports \rightarrow Observe and monitor children in various size groups. The How and Why of Using Small Groups in Make use of small group sizes to observe children more Preschool closely and to observe social dynamics of groups. \rightarrow Provide activities that promote cooperative play. Facilitate various activities during play. **Targeted/Specialized Supports Collaborative Planning for Addressing Individual Needs** \rightarrow Make use of various size groups during the daily routines and schedules in order to meet individual Using Adapted Books to Encourage Participation needs for instruction, self-care, and social skill training. \rightarrow Individualize lessons, interests, and curriculum Sample Group Activity Matrix adaptations during small group times in the routines. \rightarrow Develop activity matrixes that address small groups as Sample Individual Activity Matrix well as individual instruction. \rightarrow Provide time in groups of various sizes that are based on a variety of traits, interests, and abilities. **Intensive Interventions Curriculum Modification Planning Form** \rightarrow Develop daily schedules that provide for both group and individual instruction and progress monitoring Ideas to Engage Children with Significant based on children's IEP's, as well as standards. **Disabilities** \rightarrow Incorporate additional guided practice, individualized instruction, and intensive interventions into small group/individual settings during the day. \rightarrow Plan for implementation of curriculum modifications during small group follow-up of lessons.

4e. All children have opportunities to participate with peers in activities.

Quality indicators:

- Children are active participants in class activities.
- Lesson plans include notes related to IEP goals, accommodations, modifications or differentiated instructional strategies as needed.
- Materials and activities are varied to accommodate for individual needs in learning styles, attention spans, needs for movement, repetition, and multiple modes of response. Materials and activities focus on children's functional use of skills.
- Teachers demonstrate and encourage empathy and tolerance and teach skills for interacting and problem-solving with peers.

Questions to ask:

- ✓ Are needed accommodations and adaptations readily available to facilitate all children being included in activities?
- ✓ Does an atmosphere of inclusion and friendship exist in the classroom?
- ✓ Do all teachers/staff work to support all children's participation in activities?

Guide to Evidence-based Practices

Focus on Facilitating Social and Behavior Skills :

Teaching and practice of behavior expectations

Direct instruction for social skills

Supports for children who experience social and behavioral difficulties

Teaching and supporting transitions

Opportunities for making choices and initiating activities

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

5.Facilitation of Social Skills and Behavior Management	
5a. A system is in place for teaching and providing practice f	or behavior expectations.
 Quality indicators: Teachers are proactive instead of reactive. Teachers promote and recognize positive behavior. Teachers review the daily rules throughout the day allowing time for direct instruction and practice. Rules are posted with pictures and words. Teachers are aware of developmentally appropriate, as well as age-expected behavior skills. Teachers and staff assist children in understanding and practicing rules in various settings. Emphasize and practice functional use of rules. Questions to ask: How do children know what the rules mean? How often do you review the rules and classroom expectations? 	When I'm Upset Image: Constrained and the second and the seco
 How do you take into account what is developmentally appropriate for typically developing children and children with special needs when addressing behavioral issues? 	If I need something, I raise my hand. I stay in my seat. I eat my own food.
Supports, Accommodations, Adaptations	Links to Additional Information Right click to open in new window
Universal Supports	Developing and Displaying Rules
 → Display visuals and reminders for routines, schedules, and rules throughout the classroom. → Review rules and expectations regularly and provide individual reminders as needed. → Develop consistent responses for positive descriptive feedback and redirection. → Provide opportunities for learning and practicing calming techniques. 	Providing Rule Reminders and Positive Feedback Sharing Rules with Families
Targeted/Specialized Supports	General Classroom Rules with Visuals
 → Provide individualized visuals, including photos of actual situations, to help with understanding of rules. → Provide social scripts and individualized strategies for segments and settings of the day's routines. 	<u>Rules for Specific Activities with Visuals</u> <u>Examples of Visual Displays of Rules</u> Circle Time Checklist
 → Encourage self-monitoring by providing positive statements and problem-solving strategies. → Reinforce rules with songs and rhymes that include names and photos of children. 	Developing Individualized Rules
 Intensive Interventions → Individualize rules by displaying in varying modalities (visual, tactile) with use of photos or individual child and activity. 	<u>Developing inalviaualized Rules</u> Specialized and Individualized Rules Calming-down and Self-regulation Strategies
 → Provide individual assistance and monitoring, along with frequent and immediate feedback. → Provide guided practice and repetition of actions in order to help children remember the actions associated with specific rules. 	<u>canning-uown unu Seij-i eguiution Strutegies</u>

5.Facilitation of Social Skills and Behavior Management 5b. Direct instruction is provided for social skills and replace	ement behaviors.
 Quality indicators: Direct instruction related to age-expected social and behavior skills is provided by the teachers. Teachable moments are used to further explain classroom expectations. Children are provided with an alternative behavior and new skills are taught. Guided practice is provided. Children are provided opportunities to practice social skills in multiple settings and situations. Visual supports are used. Questions to ask: How do children know what to do? How do you teach replacement behaviors? What visual supports are used to assist in the correction of inappropriate behavior? 	Problem Solving Solutions Solutions Solutions Stare trade trade Share trade
Supports, Accommodations, Adaptations	Links to Additional Information

5.Facilitation of Social Skills and Behavior Management	
5d. Transitions are anticipated, taught, and supported throu	ghout the day.
 Quality indicators: Transitions are planned instructional times and are documented in the lesson plan book. Children are prepared in advance for transitions during a morning review of the daily schedule and again when the activity is changing. Teachers provide children with functional skills and practice related to transitions, referring to the expectations and the order of activities of the day. Teachers prepare and provide practice for transitioning to multiple situations and settings. Visual supports and social scripts are used to help children know what to expect in various settings. 	5 more minutes to Play
 Questions to ask: ✓ How do you prepare children for transitions? ✓ What activities do you prepare to ease transitions? ✓ What types of visual supports do you use to ease transitions? ✓ Are these supports used throughout the day, week or year? ✓ Are they changed as the needs of the children change? 	First Then
Supports, Accommodations, Adaptations	Links to Additional Information Right click to open in new window
 Universal Supports → Teach expectations for transitions through direct instruction and guided practice. → Provide supports for transitions with visuals, songs, rhymes, and other cues (sounds, actions) 	<u>Universal Design for Early Childhood</u> <u>Transition Strategies for Early Childhood</u>
 Targeted/Specialized Supports → Provide picture and photo schedules and refer to them frequently. Individualize and provide guided practice. → Provide first/then statements to prepare for transitions. → Plan children's functional class "jobs" so that they are closely related to times of difficult transitions. Provide specific and positive feedback. → Develop social scripts related to specific transitions. 	Teaching and Supporting TransitionsPreparing Children for TransitionsUsing Social Stories to Teach TransitionsTransition Songs for ClassroomsSpecialized Visuals for Daily Routines
 → Provide specialized supports for transitions (visual, tactile, auditory). → Provide guided practice and individual assistance in a variety of situations to children who have difficulty following the steps of routines and transitions. → Collaborate with service providers, therapists, and families to develop supports to address communication, sensory, motor, cognitive, and other concerns. 	<u>Preparing Children by Teaching and Supporting</u> <u>Transitions</u>

5.Facilitation of Social Skills and Behavior Management	
5e. Opportunities and instructions are provided for making	choices and initiating activities.
 Quality indicators: There is a balance of adult directed and child directed activities throughout the day. Children are able to make choices during structured activities – such as stories or songs during the morning circle time. Children are able to make choices during unstructured activities – such as centers and recess. Children are encouraged and assisted in selecting and participating in activities that are functional within the routines of the day. 	Sensory choices
 ✓ At what times of the day are children permitted to make choices for preferred activities? ✓ Do you allow children to make choices during structured activities? How so? 	morning choice
Supports, Accommodations, Adaptations	Links to Additional Information Right click to open in new window
<u>Universal Supports</u>	Gving Children Choices
 → Develop a daily schedule with a balance of activities that are child-directed with those that are teacher-directed → Provide opportunities for children to have choices within the scheduled activities of the day as well as in various settings. 	<u>Five Ways to Build Decision-making Skills in Prek</u> <u>Ideas to Support Child-initiated Learning</u>
Targeted/Specialized Supports	Visuals to Support Play Skills
→ Facilitate play interactions and initiation with peers through guided practice, peer buddies, and adult modeling.	Supports for Helping Children with Interaction and Play
 → Facilitate interactions in various situations through guided practice (adults in lunchroom, adults and children in other classrooms) → Provide social scripts and communication strips to support initiation and play with peers. 	<u>Grouping Children to Promote Social and</u> <u>Emotional Development</u>
Intensive Interventions	
 → Provide individualized supports for selection and communication of choices (visual, tactile, auditory). → Collaborate with service providers and therapists to plan for use of core boards, AAC, and other modes of communication. → Teach choice making at developmental level and during motivating activities. Begin with real objects or photo 	T <u>eaching Choice making</u> Teaching Children about Choice Making
 → Facilitate initiation of activities through guided practice and individual supports. 	

5.Facilitation of Social Skills and Behavior Management		
5f. Teachers' actions provide a nurturing and respectful environment.		
 Quality indicators: Teachers speak with kind words and a calm tone of voice to all children, even those who experience behavior difficulties. Teachers communicate with children in a constructive manner and are proactive rather than reactive. The classroom environment is welcoming, accepting, and safe and staff exhibit these attitudes across school settings. 		
Questions to ask: ✓ How do children know that they are cared for and respected in the classroom? ✓ What proactive strategies are put in place to prepare for children with behavioral issues?

<u>Universal Supports</u>	<u>Pyramid Model of Supports</u>	
→ Engage with children on their level so that you are able to look directly at them.	Giving Positive Attention	
→ Provide "wait time" when asking a question or requesting a response.	Foundations of Emotional Development	
→ Personalize the environment with photos of the children and labels of their personal areas.		
→ Teach children how to request help and assist them when you see struggles or difficulties.		
Targeted/Specialized Supports	<u>Cooperative Games (with visuals)</u>	
→ Facilitate cooperative and imaginative play by suggesting ideas and focusing on kindness and friendship.	Communicating Expectations in Positive Terms	
→ Communicate expectations proactively and provide reminders regularly, not only when problems arise.		
→ Provide specific strategies for transitions, peer interactions, and routines in advance and with photos specific to each child's needs.		
→ Provide assistance during whole group and small group activities to children who have difficulty following the lesson or remaining with a task.		
 Intensive Interventions → Collaborate with service providers, therapists, families and classroom staff so that an atmosphere of 	<u>Pyramid Practices Checklist (including</u> <u>Individualized Interventions)</u> Strategies for Children with Challenging	
respect, including confidentiality of information, is established in the classroom.	<u>Strategies for Children with Challenging</u> <u>Behaviors (includes family involvement)</u>	
→ Discuss progress, needs, and IEP-related information with family members in a respectful and helpful manner.	<u>Tool Kit for Trauma-informed Care</u>	
→ Provide information about community and school resources to families as appropriate.		

Guide to Evidence-based Practices

Focus on Exceptional Student Education (ESE) Supports:

- Teachers and staff are aware of IEP goals, accommodations, and special needs.
- Teachers meet required deadlines, updates, progress monitoring, and IEP mandates
- Teachers and staff coordinate and plan with service providers (examples: Speech-Language Pathologists, Occupational Therapists, Physical Therapists)

Technical Assistance and Training System (TATS) 3280 Progress Drive FAAST Center, Suite 250 Orlando, FL 32826 Tel: 407-823-3058 Fax: 407-823-1360 Email: <u>tats@ucf.edu</u> Website: <u>http://www.tats.ucf.edu</u>

6. ESE supports and services	
6a. Teachers/staff are aware of IEP goals, accommodations	, and special needs.
 Quality indicators: Teachers are aware of the goals written into the IEP for children with special needs. Teachers embed IEP goals into daily activities and provide opportunities for practice in varying situations Children with special needs are active participants in class activities with accommodations and modifications as needed. Integration of IEP goals is documented in lesson plans and functional use of skills is emphasized. 	
 Questions to ask: ✓ How do you document integration of IEP goals into the lesson plans? ✓ How often do you refer to the IEP and goals? ✓ How / when do you collect data toward goals? 	
Supports, Accommodations, Adaptations	Links to Additional Information

6. ESE supports and services		
6c. Teachers/staff coordinate and plan with service providers (ex. SLP, OT, PT)		
 Quality indicators: Teachers/staff coordinate with service providers by sharing information about individual student and classroom needs. Teachers/staff provide information, schedules, and planning notes to service providers and assist in providing an integrated model of therapy. Teachers and service providers collaborate with families about IEP decisions and conduct discussions to share information related to children's interests, needs, and progress. 		
 Questions to ask: ✓ Does the teacher coordinate with and include service providers in plans, lessons, and activities? ✓ Does the teacher welcome therapists into the classroom and facilitate an inclusion model of service delivery? 		
Supports, Accommodations, Adaptations	Links to Additional Information Right click to open in new window
