## 5. Facilitation of Social Skills and Behavior Management

### 5d. Transitions are anticipated, taught, and supported throughout the day.

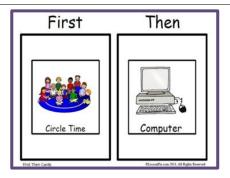

Quality indicators:

- Transitions are planned instructional times and are documented in the lesson plan book.
- Children are prepared in advance for transitions during a morning review of the daily schedule and again when the activity is changing.
- Teachers provide children with functional skills and practice related to transitions, referring to the expectations and the order of activities of the day.
- Teachers prepare and provide practice for transitioning to multiple situations and settings. Visual supports and social scripts are used to help children know what to expect in various settings.

*Questions to ask:* 

- ✓ How do you prepare children for transitions?
- ✓ What activities do you prepare to ease transitions?
- ✓ What types of visual supports do you use to ease transitions?
- ✓ Are these supports used throughout the day, week or vear?
- ✓ Are they changed as the needs of the children change?

Supports, Accommodations, Adaptations

# <u>Universal Supports</u>

- → Teach expectations for transitions through direct instruction and guided practice.
- → Provide supports for transitions with visuals, songs, rhymes, and other cues (sounds, actions)

**Transition Strategies for Early Childhood** 

# **Targeted/Specialized Supports**

- → Provide picture and photo schedules and refer to them frequently. Individualize and provide guided practice.
- → Provide first/then statements to prepare for transitions.
- → Plan children's functional class "jobs" so that they are closely related to times of difficult transitions. Provide specific and positive feedback.
- → Develop social scripts related to specific transitions.

**Using Social Stories to Teach Transitions** 

**Transition Songs for Classrooms** 

#### **Intensive Interventions**

- → Provide specialized supports for transitions (visual, tactile, auditory).
- → Provide guided practice and individual assistance in a variety of situations to children who have difficulty following the steps of routines and transitions.
- → Collaborate with service providers, therapists, and families to develop supports to address communication, sensory, motor, cognitive, and other concerns.
