

2. Embedded instructional strategies

2a. Independent functioning and self-care skills are incorporated in daily routines.

Quality Indicators

- Adequate time is allowed for children to participate as independently as possible. Children who need assistance are provided prompts that lead to independence.
- Self-care skills are incorporated into daily routines and children participate in activities such as being “snack helper” or other classroom jobs. **Family members are included in planning for self-care routines.**
- Children clean up and help organize/put away materials in the classroom, **lunchroom, and settings throughout the campus.**

Questions to ask

- ✓ *Is ample time allowed during the daily schedule for children to perform self-care skills?*
- ✓ *Are children encouraged and taught to help with cleaning up and other classroom jobs?*
- ✓ *Are there visuals to support children and encourage independence through the steps of self-care tasks?*
- ✓ *Is assistance (with a plan for fading prompts) provided for children who need assistance?*

Supports, Accommodations, Adaptations

Universal Supports

- Teach children the steps of self-care routines and allow time in the daily schedule for them to practice.
- Place visuals showing step-by-step processes for routines.
- **Collaborate with family members to develop plans for generalization of skills across various settings.**

[Addressing Adaptive Skills in the Classroom \(correlation to FELDS\)](#)

[Tats Talks to Families about Children's Personal care](#)

Targeted/Specialized Supports

- Provide direct instruction using verbal and model directions for steps shown in visuals.
- Enhance instruction and practice through use of classroom books and toys in centers.
- Coordinate with families to provide consistency in teaching self-care skills.
- Employ appropriate system of prompting in order to develop independence.

[Helping Children Develop Independence](#)

[Links to Six Documents Addressing Adaptive Skills in the Classroom: Dressing, Feeding, Hygiene, Toileting, Responsibility and Participation](#)

Intensive Interventions

- Consult and collaborate with therapists and service providers to develop plans to support children with physical and/or cognitive needs.
- Ensure that children with significant needs for support are given ways to participate as much as possible in their self-care routines.

Embedded instructional strategies in developmental domains

2b. Gross and fine motor skills are included in daily lessons and activities.

Quality Indicators

- Movement activities are provided periodically throughout the day (ex. movements, marching, walking like animals during circle, transitions, and active play).
- **Children use gross and fine muscle movement skills in functional ways to physically navigate through a variety of settings and situations (classroom activity areas, playground, lunchroom, bathroom).**
- A variety of fine motor activities and materials are available throughout the day.
- Fine motor activities are developmentally appropriate and engaging and children receive assistance in fine motor tasks if needed.
- Adapted materials and tools are available for fine and gross motor activities.

Questions to ask

- ✓ Are motor breaks and motor activities built into daily routines (example: movement activities interspersed with seated activities during circle time; movements incorporated into transitions)?
- ✓ Does the classroom offer a variety of fine motor activities, some of which are provided in centers and free choice areas?
- ✓ Do adults encourage and reinforce gross and fine motor activities throughout the day?

Supports, Accommodations, Adaptations

Links for Additional Information
Right click to open in new window

Universal Supports

- Lesson plans and daily schedules should include opportunities for gross motor, fine motor, and perceptual motor activities throughout the day.
- **Children are encouraged and reinforced for their participation in motor activities at varying levels of developmental skills and for various functions that are relative to their interests.**

[Strategies and Supports in Early Childhood \(FIN & TATS\)](#)
[Florida Early Learning and Developmental Standards](#)

Targeted/Specialized Supports

- Specialized materials and tools are provided to meet physical, cognitive, and developmental needs.
- Movement and sensory activities are provided periodically and increased for children based on individual needs.

Embedded instructional strategies in developmental domains

2c. Social/emotional skills instruction is provided throughout the day.

Quality indicators:

- Teachers use direct instruction of social emotional skills (such as sharing or turn taking) **and emphasize the use of skills across situations and settings.**
- Teachers take advantage of “teachable moments” to reinforce taught skills **and provide practice in various settings and situations.**
- Teachers clearly communicate expectations and choices.
- Teachers respect and understand the feelings and emotions of children and help them identify responses to feelings of self and others.

Questions to ask:

- ✓ *When do you provide children with instruction related to acceptable behavior?*
- ✓ *How are the rules and teacher expectations communicated to children?*
- ✓ *Are children taught alternative and acceptable behaviors to replace inappropriate behaviors?*

Supports, Accommodations, Adaptations

Universal Supports

- Provide instruction and practice for social skill development throughout activities **and in various settings.**
- Provide adult interaction and prompting during play to facilitate social peer interaction

[Head Start Inclusion Resources](#)

[Florida Early Learning and Developmental Standards](#)

Targeted/Specialized Supports

- Provide direct instruction, supported by **guided practice in various settings**, for development of social skills.
- Provide instruction with supports and guided practice to provide children with strategies for problem solving and seeking assistance.
- Provide individualized social scripts, photo and visual examples, and communication prompts for skills associated with play, group interaction, and class rules, for example.
- Include recognition of self and others' emotions and feeling in lessons and in teachable moments throughout activities in various situations.
- Teach and provide practice and visual supports with prompting for self-regulation skills.

[Process for Teaching Social Skills - from Council for Exceptional Children](#)

[Social Skills in the Classroom – Correlation FELDS](#)

Intensive Interventions

- Implement specific behavior plans with instruction of social skills included along with interventions to address problem behaviors.
- Consult with service providers and include families in instructional strategies.

[Visuals for Supporting Social Communication](#)

[Supports for Helping Children Interact and Play with Peers](#)

Embedded instructional strategies

2d. Emphasis on language and communication

Quality indicators:

- Teachers actively engage children in social conversation beyond the scope of the prescribed curriculum **and assist them in using conversational skills in functional ways throughout activities.**
- Teachers identify vocabulary or linguistic concepts and embed them into teaching and learning opportunities, **emphasizing real-life examples and situations that help children generalize the information.**
- Teachers provide opportunities to practice use of new vocabulary or linguistic concepts in varying situations and settings, **including collaborating with families for follow-up.**

Questions to ask:

- ✓ *How do you incorporate language or communication-building activities into all areas of the daily routine?*
- ✓ *What types of questioning strategies do you use to expand thinking and expressive/receptive communication skills?*

Supports, Accommodations, Adaptations

Universal Supports

- Support communication and language development with inclusion of visual supports throughout routines and schedules.
- Include vocabulary words with meaningful conversation and discussion with class staff and children throughout the day.
- Facilitate communication and language development during play and group activities.

[Universal Design in Early Childhood](#)

[Florida Early Learning and Developmental Standards](#)

[Strategies for Promoting Communication](#)

[TATS Talks to Families about Communication and Language](#)

Targeted/Specialized Supports

- Provide visuals to support development of communication and language and vocabulary.
- Plan activities that provide opportunities for direct instruction with guided practice to children in various situations in skills of answering questions, initiating comments, and making choices for example.
- Provide direct instruction with guided practice for children to address varying modes and levels of development.

[Addressing Communication Needs in the Classroom \(correlation to FELDS\)](#) .

[Supporting Communication for Various Ages](#)

Intensive Intervention

- Consult and collaborate with service providers and therapists to implement specialized programs to address significant needs.
- Communicate and coordinate with families to provide consistency of interventions.

[Helping Team Members Respond to Various Modes of Communication](#)

[Supporting Children with Various Response Modes](#)

Embedded instructional strategies in developmental domains

2f. Children are supported in the development of awareness of their goals

Quality indicators:

- Build trusting relationships in a safe and nurturing environment.
- Staff references “what we are learning”, supports lessons visually, and follows up with **functional activities** to reinforce learning goals.
- Children are supported in focusing on and practicing skills, including social and emotional development, **in a variety of settings**.

Questions to ask:

- ✓ How do you support children in developing increased attention and focus?
- ✓ How do you introduce lessons so the children find them meaningful and can **make connections to functional activities and use of materials**?

Supports, Accommodations, Adaptations

Links for Additional Information
Right click to open in new window

Universal Supports

- Display and state current themes and learning goals of lessons and activities throughout the day.
- **Involve students in the development of their daily goals related to activities and centers.**
- **Support children in understanding their emotions** and provide strategies to assist them with focus, attention, and practice of skills.

[Universal Design in Early Childhood](#)

[Tip Sheets for Classroom Strategies](#)

[Florida Early Learning and Developmental Standards](#)

[Building Positive Relationships with Young Children](#)

Targeted/Specialized Supports

- Provide visuals/photos that show children lesson content and goals.
- Provide photos of “what it looks like” when a specific task or interaction is being accomplished.
- **Present long-term goals in small steps and provide functional meaning, positive feedback, and opportunities to practice in a variety of settings.**
- Address social goals with emphasis on positive interactions and trusting relationships.

[Example of Activity Matrix with Target Skills](#)

[TATS Talk - Teaching Lessons that Last a Lifetime](#)

Intensive Interventions

- Provide adapted materials and presentations to assist children in understanding group and individual goals.
- Provide modes of presentation and responses that facilitate participation of each child in activities that address goals.
- Support children’s participation through use of visuals, photos, accessible materials, and **increased opportunities for practice in varying situations.**
